

Ms. Darling (not her actual name) is a single woman, age 59, with an annual income of \$17,000 per year, and annual energy expenses of \$777.

Ms. Darling applied for WAP to reduce energy burden and improve comfort.

Utilizing WAP funding, STEP performed air sealing measures, installed smoke and CO detectors, installed mechanical ventilation and other H&S measures. These measures resulted in safer living conditions as well as a 23% reduction in air infiltration and a savings of approximately \$637 per year in fuel costs.
