SELF-ASSESSMENT TOOL FOR PRIVATE CEEs

The CSBG organizational standards provide a standard foundation of organizational capacity for all CSBG Eligible Entities (CEE) across the United States. The Federal Office of Community Services' Information Memorandum (IM) 138 provides direction to States and CEEs on establishing organizational standards by FY 2016 and includes the final wording of the standards developed by the OCS-funded organizational standards Center of Excellence (COE).

The COE-developed organizational standards are comprehensive and were developed by and for the CSBG Network through the work of the CSBG Working Group. They work together to characterize an effective and healthy organization while reflecting the vision and values of Community Action and the requirements of the CSBG Act.

The following assessment tool is intended as a starting point for State CSBG Offices that will need to assess the CEEs in their states against the COE-developed organizational standards. The tool has been modified from earlier versions to reflect the final standards language included in IM 138. This tool can be modified to meet the needs of States and CEEs and provides guidance regarding the intent of the CSBG Working Group as they developed the standards. While the guidance provided in this assessment tool and the Glossary may not provide the level of detail desired in all categories, it is hoped that it can spur additional conversation between CEEs and the State CSBG Offices as these groups come together on standards implementation at the state level. Please note the guidance provided is that of the Center of Excellence, and should not be considered binding. The State CSBG Office and local CEEs are encouraged to work together to come to agreement in each State as to the guidance for each standard.

As noted above, this tool has been updated with the final language for the COE-developed organizational standards as issued in IM 138. Please note that the Center of Excellence may provide additional modifications to this guidance and may modify the tool as work of the CSBG Working Group and Center of Excellence work continues and CEEs and States work together to implement the CSBG organizational standards.

THIS TOOL IS INTENDED TO BE USED BY PRIVATE (NONPROFIT) CEEs

It is important to note:

- **This tool incorporates the final language for each of the 58 standards for Private CEEs as described in IM 138.** The COE-developed organizational standards are now considered final and the language in this tool for each of the standards has been modified to match IM 138.
- **This tool is meant to be a resource for CSBG Eligible Entities and State CSBG Offices and is meant to be used internally.** It is hoped this promotes conversation, dialogue, and cooperation. However, earlier iterations of the tools have been used by States and Agencies to assess to the standards as they ramp up to FY 2016, and these updated tools may be used by States to inform the assessment and monitoring process.
- **Similar tools have been developed for Agencies and States.** While the tools have slightly different presentations for Agencies and States, the language and guidance is the same for each standard. There is some variance on language related to Private CEEs and Public CEEs as there is in the COE-developed standards. In addition, a *Glossary of Terms* has been created that users of this tool may want to also reference.

- **The guidance provided is not binding.** The guidance provided in this tool is meant to help frame the intent of the standards and, along with the Glossary, provide readers with information regarding the meaning of the standards as developed by the CSBG Working Group. As assessment and monitoring protocols are adjusted to incorporate standards, there may be additional information that comes through the conversations between State CSBG Offices and CEEs. If deemed appropriate, the COE may modify the guidance included in this tool to reflect new information and/or good practices as the tools are used.
- **This tool may change going forward.** This tool and its layout may be amended as the COE develops tools for the implementation phase of standards. Also, as CEEs and States work to implement the standards, the design and content may change to reflect what has been learned.
- **This tool is adaptable to your needs.** This tool is meant to be used by CEEs for internal assessment. Prior iterations of this tool have been downloaded by CEEs and modified to meet individual agency needs. This is an appropriate and hoped for use of this tool and CEE boards and staff are encouraged to share ways they have used this tool with the COE and CSBG Working Group. It is available in both PDF and Microsoft Word formats to make it more flexible.
- **Refer back to IM 138.** All users of this tool are encouraged to read and refer back to IM 138 regarding implementation of CSBG organizational standards

There are several elements to this tool:

First, there is brief guidance on what has been heard in the field on each standard. It is not binding guidance, and attempts to clarify issues that have been raised without unintentionally narrowing them.

Second, is the standard assessed as *Met* or *Not Met*?

Third, what document(s) were used to assess the standard? Agencies that have had reviews that relied on specific documentation have found it easier to demonstrate they meet a standard. Recording the document(s) or tool(s) used on this assessment may assist in gathering additional documentation in the future. This is not intended to be an exhaustive list, nor should an agency need to have all of the sample documentation in place. This list is only meant to provide examples of ways that CEEs can demonstrate and record how they meet individual standards. There is a space on the tool to note documentation that was used but was not included on the pre-populated list.

Fourth, if the standard is not currently met, what is the progress has been done to date by the Organization to meet the standard.

Fifth, what action steps, if any, are planned by the Organization to meet or even exceed the standard.

Sixth, there are places following each standard to capture general notes and to outline next steps if needed or desired.

If you have questions or feedback about these assessment tools, please contact Jarl Crocker at jcrocker@communityactionpartnership.com or Cashin Yiu at cyyiu@communityactionpartnership.com.

Maximum Feasible Participation – Category 1: Consumer Input and Involvement

Standard 1.1 The organization demonstrates low-income individuals' participation in its activities.

Guidance:

- This standard is meant to embody “maximum feasible participation”.
- The intent of this standard is to go beyond board membership; however, board participation may be counted toward meeting this standard if no other involvement is provided. The tripartite board is only one of many mechanisms through which CEEs engage people with low-incomes.
- Participation can include activities such as Head Start Policy Council, tenant or neighborhood councils, and volunteering, etc.
- Though not mandatory, many CEEs meet this standard by including advisory bodies to the board.

Standard 1.2 **The organization analyzes information collected directly from low-income individuals as part of the community assessment.**

Guidance:

- This standard reflects the need for CEEs to talk directly with low-income individuals regarding the needs in the community.
- Data can be collected through a variety of ways including, but not limited to, focus groups, interviews, community forums, customer surveys, etc.
- Analyzing the information can be met through review of the collected data by staff and/or board, including a review of collected data in the written community assessment, with notations of this review in the Assessment's Appendix, committee minutes, etc.

Standard 1.3	The organization has a systematic approach for collecting, analyzing, and reporting customer satisfaction data to the governing board.
---------------------	---

Guidance:

- This reflects the need for any business to gather information regarding customer satisfaction. All organizations need to be aware of how satisfied their customers are of the services they receive.
- This standard does not imply that a specific satisfaction level needs to be achieved.
- Documentation is needed to demonstrate all three components in order to meet the standard: 1) collection, 2) analysis, and 3) reporting of data.
- A systematic approach may include, but not be limited to, surveys or other tools being distributed to customers annually, quarterly, or at the point of service (or on a schedule that works for the individuation CEE). Such collection may occur by program or agency-wide at a point in time.
- Analyzing the findings is typically completed by staff.
- Reporting to the board may be via written or verbal formats.

Maximum Feasible Participation – Category 2: Community Engagement

Standard 2.1 **The organization has documented or demonstrated partnerships across the community, for specifically identified purposes; partnerships include other anti-poverty organizations in the area.**

Guidance:

- Partnerships are considered to be mutually beneficial arrangements wherein each entity contributes and/or receives: time, effort, expertise and/or resources.
- Specifically identified purposes may include but are not limited to: shared projects; community collaborations/coalitions with an identified topic e.g. domestic violence, homelessness, teen pregnancy prevention, transportation task forces, community economic development projects, etc.; contractually coordinated services; etc.
- The IS Report already asks for a list of partners. The intent of this standard is not to have another list, but to have documentation that shows what these partnerships entail and/or achieve.
- These could be documented through MOUs, contracts, agreements, documented outcomes, coalition membership, etc.
- This standard does not require that every partnership is a formal, fully documented relationship.

Maximum Feasible Participation – Category 2: Community Engagement

Standard 2.2 The organization utilizes information gathered from key sectors of the community in assessing needs and resources, during the community assessment process or other times. These sectors would include at minimum: community-based organizations, faith-based organizations, private sector, public sector, and educational institutions.

Guidance:

- If gathered during the community assessment, it would be documented in the assessment. If done during “other times” this may be reflected in reports, data analysis, or staff/board meeting minutes.
- Engagement may include: key informant interviews, staff participation in other community groups/advisory bodies, community-wide processes, etc.
- Documentation is needed to demonstrate that all five sectors have been engaged: community-based organizations, faith-based organizations, private sector, public sector, and educational institutions. There is no requirement for how many individual organizations the CEE must contact, or what data is collected.
- If one or more of these sectors are not present in the community or refuses to participate, then the CEE needs to demonstrate the gap or a good faith effort to engage the sector(s).
- Demonstrating that you have “gathered” and “used” the information may be met in a variety of ways including, but not limited to: summarizing the data in the community assessment or its appendices; documentation of phone calls, surveys interviews, focus groups in CEE files (hard copy or electronic); documentation in planning team minutes; summary reports on the data shared at board meetings or board committees; etc.

Standard 2.3 The organization communicates its activities and its results to the community.

Guidance:

- This may be met through a CEEs annual report, social media activity, traditional news media, community outreach activities, etc.
- Community would be defined by the CEE but needs to include those outside of the staff and board of the CEE.

Maximum Feasible Participation – Category 3: Community Assessment

Standard 3.1 **The organization conducted a community assessment and issued a report within the past 3 years.**

Guidance:

- This standard refers to what is sometimes called a community needs assessment, and requires that CEEs assess both needs and resources in the community. The requirement for this assessment is outlined in the CSBG Act.
- This may require CSBG Lead Offices to adjust timeframes for required submission.
- The report may be electronic or print, and may be circulated as the CEE deems appropriate. This can include: websites, mail/email distribution, social media, press conference, etc.
- It may be helpful for CEEs to document the report release date such as April 2014 or December 2015.

Standard 3.3 **The organization collects and analyzes both qualitative and quantitative data on its geographic service area(s) in the community assessment.**

Guidance:

- Documentation is needed to demonstrate that both types of data are collected in order to meet the Standard:
 - Qualitative: this is opinions, observations, and other descriptive information obtained from the community through surveys, focus groups, interviews, community forums, etc.
 - Quantitative: this is numeric information, e.g. Census data, program counts, demographic information, and other statistical sources.
- Documentation on data analysis is also required in order to meet the Standard.

Standard 3.4 **The community assessment includes key findings on the causes and conditions of poverty and the needs of the communities assessed.**

Guidance:

- There is no required way to reflect this information.
- The organization may choose to include a key findings section in the assessment report and/or executive summary.
- Conditions of poverty may include items such as: numbers of homeless, free and reduced school lunch statistics, SNAP participation rates, etc.
- Causes of poverty may include items such as: lack of living wage jobs, lack of affordable housing, low education attainment rates, etc.

Standard 4.1 The governing board has reviewed the organization’s mission statement within the past 5 years and assured that:

1. The mission addresses poverty; and
2. The organization’s programs and services are in alignment with the mission.

Guidance:

- “Addresses poverty” does not require using the specific word poverty in the organization’s mission.
- Language such as but not limited to: low-income, self-sufficiency, economic security, etc. is acceptable.
- It is the board that determines if the programs and services are in alignment with the mission. This review and formal determination would be recorded in the board minutes.

Guidance:

- The State Lead Agency is responsible for determining the plan's format, and needs to ensure that the three components are readily identifiable.
- The plan needs to be focused on outcomes, i.e., changes in status (such as hunger alleviation vs. food baskets).

Standard 4.3 The organization’s Community Action plan and strategic plan document the continuous use of the full Results Oriented Management and Accountability (ROMA) cycle or comparable system (assessment, planning, implementation, achievement of results, and evaluation). In addition, the organization documents having used the services of a ROMA-certified trainer (or equivalent) to assist in implementation.

Guidance:

- There is no requirement to have a certified ROMA trainer on staff at the organization.
- While a ROMA trainer (or equivalent) must be involved, it is up to the organization to determine the manner in which this individual is utilized. Examples include: involving the trainer in strategic planning meetings, consultation on implementation, etc.
- This includes involving a ROMA trainer (or equivalent) in the course of ROMA-cycle activities such as the community assessment, strategic planning, data and analysis, and does not need to be a separate activity.

Standard 4.4	The governing board receives an annual update on the success of specific strategies included in the Community Action plan.
---------------------	---

Guidance:

- The CSBG Act requires that boards be involved with assessment, planning, implementation, and evaluation of the programs: this standard supports meeting that requirement.
- This standard is met by an update being provided at a regular board meeting, and documented in the minutes.
- The update provided to the board may be written or verbal.
- The update provided to the board should include specific strategies outlined in the Community Action plan and any progress made over the course of the last year, or by another period of time as determined by the board that is less than one year.

Standard 4.6 **An organization-wide, comprehensive risk assessment has been completed within the past 2 years and reported to the governing board.**

Guidance:

- Reporting to the governing board would most likely occur at a regular board meeting and should be reflected in minutes.
- It is important to note that to meet the Standard the organization only has to complete the assessment and report to the board. The results of the assessment are internal to the organization and therefore private.
- There is no one mandatory tool for completing this task. This comprehensive assessment is more than the financial risk assessment contained in the audit and may also include such areas as: insurance, transportation, facilities, staffing, property, etc. To meet the Standard, the tools(s) used needs to address organization-wide functions, not only individual program requirements.

The organization's governing board has written procedures that document a democratic selection process for low-income board members adequate to assure that they are representative of the low-income community.

Guidance:

- See the CSBG Act and IM 82 for comprehensive guidance.
- See definitions list for additional clarity on democratic selection – please note that the CSBG Act requires a democratic *selection* process, not *election* process.
- Examples of democratic selection procedures for low-income sector directors include: (1) election by ballots cast by the CEE's clients and/or by other low-income people in the CEE's service area (ballots could be cast, for example, at designated polling place(s) in the service area, at the CEE's offices, or via the Internet); (2) vote at a community meeting of low-income people (the meeting could serve not simply to select low-income sector directors but also to address a topic of interest to low-income people); (3) designation of one or more community organization(s) composed predominantly of and representing low-income people in the service area (for example, a Head Start policy council, low-income housing tenant association, or the board of a community health center) to designate representative(s) to serve on the CEE's board.

- 2 CFR Part 200 (Super Circular) is in effect for any grant periods after December 26, 2014 and has additional information on conflict of interest policies and specific disclosures.
- As a point of reference, the 990 asks: Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts? Did the organization regularly and consistently monitor and enforce compliance with the policy? If so, describe how.

- Training may be delivered at board meetings, special sessions, in person, through electronic media, or through other modalities as determined by the board.

The organization's governing board receives programmatic reports at each regular board meeting.

Guidance:

- This standard does not require a report on each program at every board meeting; however it does call for some level of programmatic reporting at every board meeting. Organizations determine their own process to report programs to the board. For example, some organizations may cycle through their programs semi-annually, others may do so on a quarterly basis, and yet others may do a brief summary at every board meeting.
- Board minutes should reflect that programmatic reports have been received documentation.
- Programmatic reporting may be in writing (reports, dashboards) and/or verbal.

The governing board has received an update(s) on progress meeting the goals of the strategic plan within the past 12 months.

Guidance:

- The CSBG Act requires that Boards be involved with assessment, planning, implementation, and evaluation of programs; this standard supports meeting that requirement.
- This standard would be met by an update being provided at a regular board meeting, or a planning session, and documented in the minutes.
- The update provided to the board may be written or verbal.

---------------------	--

Guidance:

- There is no requirement that the attorney be paid, but should be a currently practicing attorney.
- Final reviews by attorneys on the board or on staff are not recommended, but are not disallowed.
- Note that the review needs to have occurred at some point during in the past five calendar years.
- Agencies may work with human resource professionals (such as SHRM certified staff) and others (attorneys on staff or on the board) prior to the legal review to minimize cost.

- This is intended to complement, not replace, program budgets.
- It is recognized that each grant or program will likely have an annual budget that may cross two organization fiscal years.
- It is important to note that an organization-wide budget is a forecast for the upcoming organization fiscal year, based on the best information at the time of development. It provides the board with an overview of what the expected revenues and expenditures are likely to be over the course of a year, with the knowledge that the actual revenue and expenditures may differ. The organization has presented to the governing board for review or action, at least within the past 12 months, an analysis of the agency's outcomes and any operational or strategic program adjustments and improvements identified as necessary.

Guidance:

- This standard would be met through board or staff discussions as long as the analysis and discussion are documented.
- It is important to note that an organization is likely to have multiple programs with varying program years. This standard addresses an annual review of organization outcomes. Organizations are likely to make operations and strategic program adjustments throughout the year, making a single point in time analysis less effective than ongoing performance management.
- Organizations can meet this standard by having: an annual board discussion of organization outcomes, multiple conversations over the course of the year, or other process the organization deems appropriate as long as these discussions are reflected in the minutes, with any operational or program adjustments or improvements being noted.
